

MAROUANE FELLOUSSI

 [marouane-f.github.io](https://github.com/marouane-f)  marouane.felloussi@uca.fr  +33 4.77.42.93.49

EDUCATION

LIMOS Research Laboratory PhD in Operations Research (supervis. <i>Xavier Delorme & Paolo Gianessi</i>)	October 2023 - Present Saint-Étienne, France
Paul Sabatier University Operations Research	Fall 2022 Toulouse, France
French Civil Aviation University MSc in Aeronautical Engineering	2019 - 2022 Toulouse, France
Classes préparatoires, Lycée Kléber (CPGE) Math, Physics (MP*)	2018-2019 Strasbourg, France

WORK EXPERIENCE

Capgemini Engineering R&D Scientific Software Engineer • Development of a centralized optimization software for water production plants	October 2022 - September 2023 Toulouse, France
Capgemini Engineering R&D Research intern (supervis. <i>Isabelle Mirouze & Sonia Cafieri</i>) • MIP for Water Production Scheduling	March 2022 - August 2022 Toulouse, France
Labo Aéro - ENAC Research intern (supervis. <i>Thierry Klein & Nicolas Peteilh</i>) • Global Sensitivity Analysis for optimized aircraft design	Fall 2020 & Summer 2021 Toulouse, France

RESEARCH INTERESTS

Research	mixed integer programming, column generation, cutting planes additive combinatorics, graph theory ML for discrete optimization
Applications	scheduling and production planning problems covering and packing problems

SKILLS

Technical Skills	Julia, Python, C++, GAMS/AMPL, ML-tools Git, Linux
Soft Skills	Curious and analytical mindset Autonomy, dedication, competitiveness
Languages	Bilingual Proficiency : Arabic, English, French
